MICHIGAN HOUSE OF REPRESENTATIVES

KLINT KESTO
STATE REPRESENTATIVE

January 23, 2013

The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683 Reply Comments

Dear Chairman Genachowski:

As a legislative aide for a state representative, I am very in tune with our constituents. Many are small business owners in SE Michigan who appreciate good competition.

I am certain that you agree that our spectrum is a national treasure that should be used wisely. It has come to my attention that LightSquared is a company that has a matter pending before the FCC to use a portion of the spectrum. I believe this is indeed a wise use and that the Commission should grant the request.

LightSquared presents an excellent plan that will have many positive impacts for a number of companies as well as the public in general. By offering more options with the mobile broadband network jobs will be created and the increased competition will have a positive impact on costs for the public.

I view this as a "win" for all involved including the FCC itself. We must do everything possible to encourage LightSquared, and other similar companies, to continue to grow in this field.

Thank you for your attention to this important matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "James Hunter", is written over a horizontal line.

James Hunter
